## Heating Instructions:

Remove items from fridge 45 min prior to placing the steaks in a 375° oven for 12 - 18 min. (depending on how well you want them done)

Vegetables can be added for 12 min.

Reheat sauce on the stove top in a pan.

Potatoes can be heated in the oven as well or can be warmed in a pan on the stovetop (oven would take 15 - 20 min from room temperature).

\* all times are approximate, as all ovens are slightly different. Convection mode is recommended.
